Kanpur, Uttar Pradesh - 209305, India

Objective

Enthusiastic and motivated Computer Science student with hands-on experience in full-stack development and AI-based projects. Proficient in C++ and Python, with a focus on building practical and user-friendly applications. Passionate about learning new technologies and applying skills to solve real-world problems while growing in a professional environment.

Education

- **Pranveer Singh Institute of Technology** — *2022 - 2026*
  B.Tech in Computer Science and Engineering with Specialization in AI — Kanpur, India
  - CGPA: 7.8/10.00
- **Avadh Collegiate** — *2021*
  Intermediate — Lucknow, India
  - Percentage: 87.1%
- **Police Modern School** — *2019*
  High School — Ghaziabad, India
  - Percentage: 89.6%

Projects

CodeWhiz : Coding Platform
Tools: [React, Node.js, MongoDB, Judge0 API, Docker]
- Built a Codewhiz-style coding platform as a personal project to apply and enhance full-stack development skills.
- Implemented real-time code execution using Judge0 API and Docker, supporting 3 programming languages with low-latency.

AI Powered Blind Assistance System
Tools: [Python, OpenCV, TensorFlow, NLP, Speech Processing]
- Designed an AI-powered mobility assistance system that helps visually impaired users perceive their surroundings using real-time object detection and audio feedback.
- Implemented a computer vision pipeline using YOLO/SSD models to detect obstacles, people, vehicles, and text in the environment.
- Integrated natural language processing and text-to-speech modules to provide voice-based instructions, alerts, and contextual scene summaries.

Skills

- **Programming Languages:** Python, C++
- **Web Technologies:** HTML, CSS, JavaScript, React.js, Node.js
- **Course Work :** Database Management System, OOPS, Computer Networks.
- **Database Systems:** MongoDB, MySQL
- **Tools & Technologies:** Git, GitHub, Docker (Basic), Postman, VS Code, AWS

Certifications

- Infosys Springboard: Python Part 1, Python Part 2, HTML5, CSS, JavaScript — *2023 - 2024*
- Supervised Machine Learning: Regression and Classification
  Platform: Coursera — *2025*
- GenAI Powered Data Analytics Job Simulation
  Platform: Forage — *2026*

Achievements

- **DSA Problem Solving -** Solved problems on platforms including LeetCode, GeeksforGeeks,HackerRank.
- **Hackathon Participation -** Participated in college-level hackathons.
